HIGHLIGHT

SEMPER & ADHUC

MOVEMENTS FROM THE PAST, MODERN SUSTAINABILITY

The movements of Semper & Adhuc's watches were manufactured between the years 1930 and 1960. With this bold choice, the French brand contributes to sustainability, while resisting the "tyranny" of market standards. The result is a unique object, which embodies its own history. The aesthetics is sober and modern, mixing the classic codes of watchmaking with more contemporary details. www.semperadhuc.fr
