Louis Vuitton recently unveiled the Tambour Damier Cobalt chronograph – a bold new version of its emblematic Tambour watch, which is inspired by the famous Damier canvas. A graphic “V” covers the dial, adding a chic and sporty element, while the self-winding movement can be viewed through a sapphire crystal case back. louisvuitton.com

The ArtScience Museum in Singapore is a modern architectural icon that inspired Mido's Rainflower timepiece collection, which is a women's range that boasts clean lines just like the Moshe Safdie building. The beauty of the watch lies in the fact that it is not a one-size-fits-all model, and allows wearers to choose case treatments, straps, dials, and even precious stones. midowatches.com
