## **Beauregard to Unveil 'Jardin d'Hiver': A Winter Garden of Rare Gems at Watches & Wonders Geneva**

*Crafted with exquisite detail and Swiss excellence, this limited edition boxed set features six Lili Bouton timepieces adorned with rare gems from around the world. Explore the enchantment of a winter garden blooming with Fire Opals, Fanta Opals, Yellow Opals, Chrysoprase, Topaz, and Amethyst, each dial meticulously crafted to perfection*

Beauregard invites you to discover the mesmerizing world of 'Jardin d'Hiver' at Watches & Wonders Geneva - a celebration of rare gems and timeless craftsmanship. This exceptional boxed set of six creations redefines women's watchmaking, blending technical prowess with centuries-old mastery to birth a refined aesthetic elegance.

Drawing inspiration from the splendor and chromatic variety of an idyllic winter garden, Alexandre Beauregard introduces two masterpieces crafted in Fire Opals and Fanta Opals from the Chiapas caves of Mexico. These crown jewels, presented for the first time, showcase opals of exceptional color and rarity, defying common expectations with their vibrant intensity.

Complementing these treasures are four Lili Bouton timepieces adorned with dials crafted from Yellow Brazilian Opal, Australian Chrysoprase, Arizona Topaz, and Peruvian Amethyst. Each dial is a work of art, meticulously polished by patient hands to elevate every fragment of stone to the status of a masterpiece.

Nestled in 18K rose gold cases and adorned with Flawless diamonds, the Lili Bouton timepieces reflect the essence of Beauregard's artistic vision - an elegant dialogue between the world of gemstones and the art of time.

Conceived in Montreal and brought to life through Swiss excellence, 'Jardin d'Hiver' is more than a collection of watches - it is a celebration of art, color, and the beauty of flowers. With this highly exclusive series, Beauregard invites watch and jewelry lovers to embark on a journey where time is measured in precious stones.
