## Beauregard unveils 'Lili Candy' White Gold at Perpétuel Gallery

4 days ago

418 1 minute read

Beauregard, nominated three times for the GPHG, debuted 'Lili Candy' White Gold timepiece – a sweet swirl of amethysts, topazes, carnelians, opals, and garnets in a circle of diamonds – at Perpétuel Gallery in Dubai. The case of the watch is crafted from a noble metal, blending white gold with Palladium 500. The dial is a work of art, with each gemstone meticulously chosen for its vibrant colour, exceptional quality, and radiant brilliance. Encrusted with 70 diamonds on the dial and complemented by 80 more on the bezel, with an additional 16 adorning the case, the watch sparkles with 166 VVS-grade diamonds. The strap, fashioned from sumptuous natural satin and meticulously hand-stitched in Geneva, features quick-release points and combines elegance with versatility. Measuring 33 mm in diameter and 9.65 millimetres thick, the watch features a high-jewellery ETA movement.
