BEAUREGARD

Lili Bouton

Lili Bouton is a discreet floral composition that exudes high jewellery from each of its petals and refuses to decide whether it's a Jewell or a watch.

Every petal of our Lili is invisibly set and patiently hand polished, making it a jewellery piece in its own right and a part of the eye-catching miniature garden of gems blooming on the dial.

With its flawless diamond set Gold case, Lili Bouton is a cocktail watch that holds the soul of Beauregard and exudes the highest craftsmanship in every detail.

As it was done in the golden age of the Swiss watches, the components of our Lili's are crafted by manufactures all over Switzerland. We take pride in our decentralized approach and are grateful for the chance to work with the very best in their trades who are part of an ever-growing circle of friends.

Conceived in Montreal and made in Switzerland,

Lili is designed with passion,

crafted with patience

and offered with love.
